New book proclaims ‘The Slow Death of the Aids/Cancer Paradigm’

Nancy Turner Banks MD offers rational, logical view of AIDS, ways of developing therapeutics that support life

GUADALAJARA, Mexico – Nancy Turner Banks MD in her groundbreaking work, “The Slow Death of the Aids/Cancer Paradigm” ([published by Xlibris](#)), targets two disease states, AIDS and cancer, to introduce a new theory of cell metabolism. The theory of cell dis-symbiosis is not based on genetic determinism, but genetic chimerism and the evolutionary energetic syntrophic processes that were the pivotal drivers of the endosymbiotic event that created the eukaryotic cell.

Both AIDS and cancer are reversible disease patterns that can never be understood by the constraints imposed by molecular biology. Life is the physical manifestation of thermodynamic fluctuations that occurred not by chance, but by adhering to principles implicit in the nature of energy itself. Because disease states arise as a result of the violation of these inherent dynamic principles, they can only be understood and resolved by refocusing on the drivers of the thermodynamic energies that sustain life and are at the very foundation of the evolutionary process.

This book is a complement to Dr. Heinrich Kremer’s “The Silent Revolution in Cancer and AIDS Medicine”, however, it explores in greater depth, the quantum and electromagnetic energetic principles that create order out of chaos and are operative at the sub-cellular level. Banks also directly challenges the concept of RNA viruses being pathogenic. This information can totally transform the field of medicine from a game of chance to a science of predictable outcomes.

Banks emphasizes that both physicians and patients can use this knowledge to “...walk away from the fear generated by a belief structure that has hypnotized them into thinking that either AIDS or cancer are transmissible and inevitably deadly.”

“The Slow Death of the Aids/Cancer Paradigm and the Apocrypha of the Eukaryotic Cell”

By Nancy Turner Banks MD

Hardcover | 6 x 9in | 316 pages | ISBN 9781524544232

Softcover | 6 x 9in | 316 pages | ISBN 9781524544225

E-Book | 316 pages | ISBN 9781524544218

Available at Amazon and Barnes & Noble

About the Author:

Xlibris Publishing, an Author Solutions, LLC imprint, is a self-publishing services provider created in 1997 by authors, for authors. By focusing on the needs of creative writers and artists and adopting the latest print-on-demand publishing technology and strategies, we provide expert publishing services with direct and personal access to quality publication in hardcover, trade paperback, custom leather-bound and full-color formats. To date, Xlibris has helped to publish more than 60,000 titles. For more information, visit xlibris.com or call 1-888-795-4274 to receive a free publishing guide. Follow us @XlibrisPub on Twitter for the latest news.
